

Pumped Up

Whether you're an OEM pump manufacturer, a pump assembler or a maintenance and repair professional, there's a Baldor•Reliance® motor designed and manufactured for your specific motor-driven pump system application.

With Baldor•Reliance medium voltage horsepower ratings to 15,000 in single or three phase designs including explosion-proof, close-coupled, vertical P-base, submersible and immersible, no other motor manufacturer offers more choices, quality or pumped up reliability than Baldor.
